

## **S.S.S. Northland Ship Code Ship 52**

I believe that America's strength lies in our diversity, in our respect for the beliefs and hopes of the individual - and in the courage and dedication of our people to their heritage.

I will maintain a personal sense of honor and seek to understand my responsibilities to my family, friends, community and my country. With understanding comes responsibility which I will undertake with the courage my community deserves.

I will recognize the dignity and worth of all humanity and will exercise fair play and good will in my daily life.

I will acquire the Scout attitude that seeks the truth in all things and the adventures of our changing world.
